

Plurilateral Request for Maritime Transport Services

1. Overall Objectives for the Plurilateral Negotiations

Further to paragraphs 25 through 27 of the Hong Kong Ministerial Declaration, and in accordance with paragraphs 7 and 11 (b) of Annex C of the Hong Kong Ministerial Declaration, recalling that maritime transport is an important facilitator of world trade and a significant service making direct contributions to Members' economy and competitiveness for many developed and developing Members, the Mission of Japan is pleased to present the delegation of India with a collective request in the Maritime Transport Services sector on behalf of the following interested Members: Australia, Canada, the European Communities and its Member States, Hong Kong China, Iceland, Japan, Republic of Korea, Mexico, New Zealand, Norway, Panama, Switzerland, the Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu.

These interested Members would also like to refer to the Decision on Maritime Transport Services adopted by the Council for Trade in Services on 28 June 1996 (S/L/24) where it was agreed that negotiations will be resumed on the basis of existing or improved offers. The Members would further like to refer to the Joint Statement on the Negotiations on Maritime Transport Services issued on 3 March 2003 (TN/S/W/11) which more than 50 Members subscribed to, including a substantial number of developing Members. The Joint Statement called for active participation, meaningful liberalization and a broad coverage of this sector in the negotiations and in the WTO/GATS framework.

This request identifies specific objectives for liberalization in Maritime Transport Services, while recognizing the flexibilities provided for individual developing Members in accordance with Article XIX.2 of the GATS. The aforementioned interested Members are also deemed to be recipients of this request.

In accordance with paragraph 7 of Annex C of the Hong Kong Ministerial Declaration, this collective request is intended to complement, and not supersede, the bilateral request-offer negotiations and the specificity of bilateral requests.

The Mission of Japan has the further pleasure to invite India to participate in a plurilateral discussion of this request, which will be organized in Geneva during the Services cluster taking place from 27 March to 7 April, 2006.

Please note that 24 other Members have received this collective request in the Maritime Transport Services sector.

The aforementioned interested Members reserve the right to modify the content of this request. Additional interested Members may also be identified in the future.

2. Requests

The Maritime Model Schedule remains an important tool for negotiations and represents the basis for making commitments on maritime transport services. The requested Members are urged to make new or improved commitments in accordance with the attached Maritime Model Schedule, with particular reference to the following points:

- (a) commitments on International Freight Transport (less cabotage) (CPC7212) Mode 1, Mode 2 and Mode 3 including but not limited to {as per Page 2 of the Maritime Model Schedule, Section under “Maritime Transport Services”}:
 - elimination of cargo reservation (Mode 1)
 - elimination of restrictions on foreign equity participation (Mode 3)
 - elimination of restrictions on the right to establish a commercial presence (MA, Mode 3)
 - elimination of nationality requirements of board members (Mode 3)
 - elimination of any other preferential treatment (NT)
- (b) commitments on Maritime Auxiliary Services (Mode 1, 2 & 3) including but not limited to {as per Pages 2-4 of the Maritime Model Schedule, Section under “Maritime Auxiliary Services” and as defined in the Note to the Maritime Model Schedule}
 - elimination of restrictions on foreign equity participation (Mode 3)
 - elimination of restrictions on the right to establish a commercial presence (Mode 3)
 - full commitments on consumption abroad and cross-border supply subject to technical feasibility (Mode 1 and 2)
- (c) additional commitments on the access to and use of port services {as per Page 1 of the Maritime Model Schedule under the Additional Commitments column}
- (d) additional commitments on the access to and use of services necessary for the conduct of multimodal transport operations {as per Page 5 of the Maritime Model Schedule under Note to the Schedule}
- (e) elimination of MFN exemptions

Any comments regarding this request, including written questions of a technical nature in advance of the plurilateral meeting, may be addressed to:

NOTE TO THE SCHEDULE

Where road, rail, inland waterways and related auxiliary services are not otherwise fully covered in this schedule, a multimodal transport operator shall have the ability to rent or lease trucks, railway carriages or barges, and related equipment, for the purpose of inland forwarding of cargoes, or have access to, and use of, these forms of multimodal activities on reasonable and non-discriminatory terms and conditions for the purpose of carrying out multimodal transport operations. "Reasonable and non-discriminatory terms and conditions" means, for the purpose of multimodal transport operations and this additional commitment, the ability of the multimodal transport operator to arrange for the conveyance of its merchandise on a timely basis, including priority over other merchandise which has entered the port at a later date.

DEFINITIONS

1. Without prejudice to the scope of activities which may be considered as "cabotage" under the relevant national legislation, this schedule does not include "maritime cabotage services", which are assumed to cover transportation of passengers or goods between a port located in _____ (name of member or, for the EC, "a Member State") and another port located in _____ (name of the member or, for the EC, "the same Member State") and traffic originating and terminating in _____ the same port located in (name of member or, for the EC, "a Member State") provided that this traffic remains within _____ (name of member or, for the EC, "this Member State")'s territorial waters.

2. "Other forms of commercial presence for the supply of international maritime transport services" means the ability for international maritime transport service suppliers of other Members to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. (This commitment shall however not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery).

These activities include, but are not limited to:

- (a) marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
- (b) the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated service;
- (c) the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
- (d) the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of the annex on telecommunications);
- (e) the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;
- (f) acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.

3. "Multimodal transport operator" means the person on whose behalf the bill of lading/multimodal transport document, or any other document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.

4. "Maritime cargo handling services" means activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring or terminal operator companies. The activities covered include the organisation and supervision of :

- the loading/discharging of cargo to/from a ship;

MARITIME MODEL SCHEDULE (continued)

- the lashing/unlashing of cargo;
 - the reception/delivery and safekeeping of cargoes before shipment or after discharge.
5. "Customs clearance services" (alternatively "customs house brokers' services") means activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through transport of cargoes, whether this service is the main activity of the service provider or a usual complement of its main activity.
6. "Container station and depot services" means activities consisting in storing containers, whether in port areas or inland, with a view to their stuffing/stripping, repairing and making them available for shipments.
7. "Maritime agency services" means activities consisting in representing, within a given geographic area, as an agent the business interests of one or more shipping lines or shipping companies, for the following purposes:
- marketing and sales of maritime transport and related services, from quotation to invoicing, and issuance of bills of lading on behalf of the companies, acquisition and resale of the necessary related services, preparation of documentation, and provision of business information;
 - acting on behalf of the companies organising the call of the ship or taking over cargoes when required.
8. "Freight forwarding services" means the activity consisting of organising and monitoring shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.
-
